PHASEONE

what the world's best photography is made of

Student worker testing digital cameras and photographic software

The Job

We are looking for student workers with good technical skills and enthusiasm to join the test group in Phase Ones R&D department in Copenhagen.

You will be part of our great test team working in an energetic atmosphere. We specify and perform the system- and acceptance testing for Phase One's world famous products for professional photography.
We work in close cooperation with the developers and the oral and written communication of the test results is an important part of our work.
We write our test documentation in English and our working language is mainly English.

Your qualifications

- Technically skilled
- Studying on a higher education - at least one year left before graduating
- Systematic and thorough with high endurance
- Enjoying cooperating and communicating in a team
- Mac and/or Windows super user
- Interest and knowledge in photography
- Fine English skills
- Good communication skills

Optional

- Interest in software testing
- Scripting and programming

Terms of employment

Working time is after appointment, expect 10-15 hours per week. Some times more.
The working place is on the company premises at Frederiksberg.

How to apply

Your application and CV should be emailed to jobs@phaseone.com
no later than Tuesday 26th of March 2013.
For additional information, please contact
Test Manager Ole Wahlgreen (owa@phaseone.com, tel 36131219)
