Phase One PRO Camera System Suitcase

Features of the Phase One Pelican Storm IM 2500 Suitcase

NYA-EVO Removable Camera Inserts (RCIs)

We have worked closely with NYA-EVO to develop the suitcase and soft bag concept into a premium versatile and travel friendly solution. Whether you are working out of a pro studio, traveling by air to remote on-location shoots, or if you are travelling into the wild to capture exquisite landscapes, we made sure that the Phase One, Pelican Storm and NYA-EVO Packaging Solution supports your journey and provides a premium experience.

Optional Phase One Adventure Backpack

NYA-EVO Fjord 36 Adventure backpack

Optional Phase One Accessory Part #60900114
For larger sizes and alternative colors please check www.nya-evo.nu

Volume: 36 L / 2,196 cu in
Weight: 1700 g / 3.3 lb
Dimensions in cm: 50 x 32 x 25 cm
Dimensions in in: 19.7 x 12.6 x 9.8 in

The NYA-EVO Fjord 36 backpack's compact size holds 36 liters of gear and complies with most flight 'carry-on' sizes. With a full-size aluminum frame, highly water-resistant and durable materials, the rugged NYA-EVO Fjord 36 all-rounder pack is up for any adventure. Top quality components, tested in factory and field, brings you worry-free performance at any time.

The NYA-EVO Fjord 36 offers you:

Peace of mind - keeps your camera equipment safe from the elements.

Comfort - aluminum frame and ergonomically designed shoulder straps make you feel the load inside the backpack much less, carrying 15kg with ease. Back padding body contact fabric is quick drying, soft and non-abrasive.

Ease and adaptability - three sizes of Removable Camera Insert - see below.

Versatility - for dynamic adventure sports as well as the urban jungle and general traveling. With carrying points for skis, snowboard, helmet, rope and ice axe, emergency whistle plus the ability to carry 15 inch laptop and other general travel gear.

Stability - our load stabilizer system moves weight to the frame and the frame transfers it to the hips

Construction

High weather resistance provided by a combination of a thermoplastic polyurethane coated nylon fabric and polyurethane coated YKK® Aquaguard® zippers. In extreme conditions a seam-taped detachable rain cover can be attached for an extra protection barrier.

Lightweight aluminum T6-6061 tubular frame combined with the use of high density foam covered with quick dry soft knitted fabric provide for optimal load management and carry comfort.

Rear panel zipper provides full access to the main compartment for easy packing. This configuration has the extra benefit of having the zipper close to the body for anti-theft security and keeping your shoulder straps out of the dirt during access.

The pack is equipped with a removable internal separator that divides the camera gear from the 'other gear'. This prevents unwanted items from the 'other gear' section to slide into the camera compartment.

Compression & gear attachment straps for carrying equipment onto the exterior of the pack. The tensioning of these straps pull the load onto the aluminum frame for optimal carry comfort and stability during dynamic activities.

The pack comes with a Hypalon® base which is extremely tough, waterproof and longwearing.

Lightweight detachable seam-taped raincover included.

Organization

Main compartment accessible from rear and top.

Roomy quick access front pocket with inside organizer that serves multiple functions depending on the activity. For backcountry it fits most snow shovels, avalanche probe and small tools. For hiking & general travel it fits travel books (up to A4 in size), extra layers, small accessories and most 15 inch laptops in the padded sleeve. This sleeve doubles up as hydration system compartment.

Stow-away stretch mesh attachment that can be fixed to

loops on the outside of the pack. This system can be used to attach bulky items like helmets, sleeping bag, jackets or extra layers and is stored inside front zip top pocket.

Stretch fabric side pockets give space even when the bag is fully stuffed.

Stretch fabric pocket on the waist belt.

Internal organizational compartments for small camera accessories (memory cards, filters, etc) on the interior rear access panel.

Two internal zipper mesh pockets for storage of small camera or travel accessories.

Attachments

Hiking poles, ski poles and ice-axes on the front panel by bungee cord and webbing loop system.

Snowboard or snow shoes on front panel.

Skis with both vertical and diagonal carry options.

Helmet attachment system on front or top panel of the pack.

Sleeping bags and mattresses on the sides, front or top of the pack (using helmet attachment system)

Materials

Nylon 210 Denier Rip-stop fabric with thermoplastic polyurethane film on interior and water-repellant coating on exterior of the backpack.

Polyester 200 Denier lining fabric with polyurethane coating.

Soft touch quick dry knitted fabric for all contact points to the body.

High density closed cell foams for suspension system.

Glove friendly aluminum zip pullers and Woojin® plastic side release buckles.

Outside zippers are all YKK®. Heavy gauge for rear zip and Aquaguard® zip for top and front zippers.

Nylon webbing.

Hypalon® base.

Phase One NYA-EVO RCI C (Carry-on)

XF Camera Add-On Hardware

Expanding the versatility with specialized quality hardware

XF Camera Body
Part # 73088

The XF Body is supplied standard with rubber and plastic covers for all ports. However Phase One does offer PRO Metal covers for all ports. The IQ4 Digital Back is supplied with a PRO metal cover covering the Sensor. Please refer to the below accessory parts list: (Optional Accessories)

Part#	Pro Metal Covers
50201195	Prism Viewfinder cover
50201196	XF Viewfinder port cover
50201193	XF DB port cover
50201252	IQ Digital Back cover (included)
50201192	XF Lens port cover

Part#	Standard Rubber Covers
40102934	XF Camera body digital back port cover
40102935	XF Camera body Viewfinder port cover
40102939	XF Camera body Lens port cover
40102635	XF Camera body Service port interface cover (Bottom rectangular rubber part)
40102634	XF Camera body Multi connector port cover
40102936	Prism Viewfinder cover
40102666	Prism Viewfinder flash sync port cover
73045	Prism Viewfinder flash hot shoe cover

XF Premium Leather Neck Strap. Part #73084
(Optional Accessory)

Prism Viewfinder

With a solid glass prism, the 90° viewfinder is the brightest of its kind and has virtually no loss of light. The prism viewfinder displays a perfect view of the scene with 100% frame coverage, and comes standard on all XF Camera Systems.

Part # 73089

The Diopter in the viewfinder can be adjusted +/- 2.5
If this is not enough, there are two diopter optical parts available.

Part# Description

73145	Prism Viewfinder Rubber Eyecup
70277	Prism VF Diopter correction lens DE401 (Standard)
70278	Prism VF Diopter correction lens DE402 (Near Sighted)
70279	Prism VF Diopter correction lens DE403 (Far sighted)

Waist Level Finder

(Optional Accessory)

The waist-level viewfinder is convenient for many styles of photography - be it in studio or on location. With the ability to retain the connection between photographer and model, or simply to attain a more effective working position, the waist-level finder is a great addition to the creative toolbox.

Part # 73090

Waist Level Finder Diopters

(Optional Accessory)

Waist level finder Diopter is supplied with a type 0 diopter
Its possible to replace with up to +/- 2 using the following kits:

Part#	Description
73094	Waist Level Finder Diopter +2
73095	Waist Level Finder Diopter +1
73096	Waist Level Finder Diopter 0 (Included with the WLF)
73097	Waist Level Finder Diopter -1
73099	Waist Level Finder Diopter -2

Genius folding mechanism plus light metering ability

The XF Waist Level Finder folds into the body like many classical cameras, thereby making the XF very compact and travel friendly. As a "first off" any Waist Level Camera, The XF Camera System can measure the light and give focus indication on the top screen using the build in Honeybee autofocus platform.

XF V-Grip

(Optional Accessory)

With dedication to improving workflow and studio use, the XF V-Grip provides advanced ergonomics and additional control options. The XF V-Grip ensures simplicity as well as dynamic improvements to handheld workflow applications. With an emphasis on design, the XF V-Grip incorporates an Arca-Swiss compatible mounting point and L-Bracket solution. Whether using the XF V-Grip hand-held or on a tripod, the ease of use and added controls make this accessory a valuable asset for any professional photographer.

Part # 73139

XF Quick release L-Bracket
with portrait mount for V-Grip
(Included with V-Grip)
Part # 73171

XF Quick Release bracket for V-Grip
(Included with V-Grip)
Part # 73172

XF V-Grip Hand Strap
(Included with V-Grip)
Part # 71061

L-Bracket for standalone use on XF
(Including the leather hand strap)
Part # 71059

NOTE:

Really Right Stuff, have developed a clamp system which is very close to Arca Swiss, but not directly compatible. Phase One have developed a special clamp add on that you will need for compatibility with Really Right Stuff clamps:

Really Right Stuff compatibility kit for L-bracket #71062

Release button and two dials with same position and function as on the camera body

Rear User button replicates function of same button on camera

High Quality Leather Hand Strap

XF Remote Release and Break Out Box B.O.B.

(Optional Accessories)

The remote release and Break Out Box B.O.B. is a high quality remote release, that also function as a break out box for instance for older Phase One 645AF accessories with an 8-pin multiport.

It can be used with the coiled cable as a smart little remote release or it can be used with the short 10cm straight cable and a power supply if you are in a studio invironment and want power in to the XF at the same time.

B.O.B. connects to the XF 12-pin multiport, and allows for power input, in one side, and an additional 8 or 18 pin release cable in the other side.

Part#	Description
73130	XF Cable Release and Break Out Box "BOB" (Including coiled cable 30cm)
50300232	XF Cable Release "BOB" Coiled cable 30cm (included with "BOB" package)
50300220	XF Cable Release "BOB" Straight cable 10cm (12-pin w. power)
50300231	XF Cable Release "BOB" Straight cable 2M (12-pin w. power)

Profoto Air Sync Transceiver

(Optional Accessory)

The Profoto Air Sync Transceiver can be used as an XF wireless flash receiver unit if you are not using Profoto flash with a build in receiver. The Profoto Air Sync can also be setup to Transmit, and in this way you can use it as a wireless remote trigger for the XF Camera.

Part#	Description
70263	Profoto Air Sync Transceiver (Receiver unit for use with other brand flash systems)

XF Power Supply

(Optional Accessory)

73131 XF Power Supply (for use direct with XF Body or through XF Cable Release “BOB”)

73203 Hähnel Remote Shutter Release HRX 280 PRO for Phase One XF/DF Camera

The Hähnel Remote release can be used as stand-alone cable release, directly connected to the XF
Or It can be used as an extension to the B.O.B. by plugging it into the right side multipin port.

XF Batteries and Battery Charger

Part# Description

70518	XF/IQ battery Li-ion 7,2V 3400mAh, 2 Pcs
70519	XF/IQ battery Li-ion 7,2V 3400mAh, 20 Pcs
70526	Hähnel Pro Cube 2 Charger for XF Camera System Batteries (XF/IQ)

Included with the charger, but can be purchased seperately:

70530 Power adaptor for XF/IQ battery charger with International outlet adaptors

XF/IQ battery Li-ion 7,2V 3400mAh, 2 Pcs
Part# 70518

Visible Dust Cleaning Kit
Part# 76002500

Storage Media and Card Reader

Part# Description

50900040	Sony 64GBXQD G Series card
50900041	Sony 64GB SF-G Series UHS-II SDXC Memory Card
50900042	Sony MRW E90 Card Reader for XQD and SD Cards

Tether Tools TetherPro USB Cables

Part#	Description
50300293	TetherPro USB 3.1 USB-C to USB-C Black 3M/10ft
50300297	TetherPro USB 3.0 USB-A to USB-C Black 4.5M/15ft

Ethernet and HDMI Cables

Part#	Description
50300294	Ethernet Cable 4.5M/15ft
50300295	Mini HDMI to HDMI cable

XF Camera System Lenses & Accessories

Lens Range and Lens Accessories Overview

Part #	Description:

Capture One & Accessories

Tangent Color Grading Controls for the Professional Capture One Retoucher

Not everyone has the luxury of a dedicated grading suite, but when you do, and you want a control surface that makes a statement to your clients, then the Tangent solutions are the panels to choose.

The New Arc has more than impressive looks; it has the controls, features, and ergonomics to match, allowing your skills to shine through and for you to make your own statement.

Tangent solutions are available from www.tangentwave.co.uk

The Arc Bundle of 3 Panels

Tangent Solutions

These are the Capture One compatible solutions

Part #	Description
ARC-BDL	The Arc Bundle of 3 Panels
RIPPLE	The Ripple Panel
WAVE2	The Wave2 Panel
ELM-TK	Element Tk panel
ELM-MF	Element Mf panel
ELM-KB	Element Kb panel
ELM-BT	Element Bt panel
ELM-BDL	Bundle of Element Tk, Mf, Kb & Bt panels

The Wave2 Panel

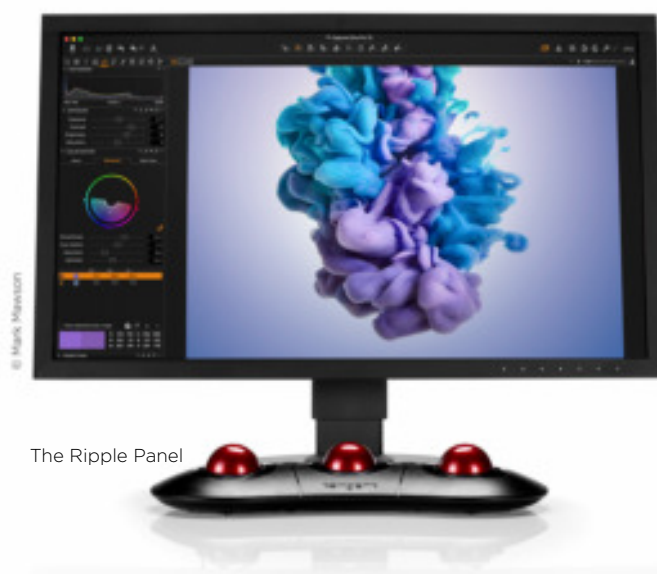

The Element Bundle of four panels (Tk, Mf, Kb & Bt panels)

© Emil Monty Freddie

Ripple is Tangent's entry level panel with a price-tag to match.

Designed for the occasional colourist, editor, and student, Ripple provides the essential 3 trackballs that speed up primary grading. Its small desk foot-print means it will sit comfortably beside your keyboard and mouse, and it won't get in the way when you're not using it.

The Ripple Panel

Capture One Logickeyboard

A dedicated and Color Coded Graphic keyboard for Capture One. A genuine Apple USB keyboard with Capture One short-cut color coding.

Part #	Description
70381	LogicKeyboard for CO UK
70382	LogicKeyboard for CO US
70384	LogicKeyboard for CO DE
