

HR Digaron-W 32mm f/4 Tilt

Rodenstock wide angle XT lens

Ultra Wide-Angle. Maximum Depth of Field.

A welcome addition for iconic Landscape photographers, the Phase One XT 3° Tilt panel allows for greater focus control of this “go-to” ultra wide-angle lens at larger apertures. The additional depth of field control, coupled with the 12mm shift capabilities of the XT Camera, provides consistent and diffraction free focus from foreground to infinity, all in one shot.
