

# HR Digaron-W 50mm f/4 Tilt

Rodenstock standard XT lens

**Standard view. Exceptional quality.**

The addition of a Phase One XT 3° Tilt panel to the Rodenstock 50mm f/4 introduces a playful accompaniment to a standard lens. The additional depth of field control, coupled with the 12mm shift capabilities of the XT Camera, provides consistent and diffraction free focus from foreground to infinity, all in one shot.

## XT Rodenstock

HR Digaron-W 50mm f/4.0 Tilt

### Specifications
